

BUSY SESSION OF THE SENATE

Many Important Measures Including Tax
Propositions, Are Passed Today.

ASSEMBLY IS ALSO DILIGENT NOW

Both Houses Get Down To Solid Work--This Week Will
Be A Very Short One--Pass Capitol
Appropriation Measure.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., May 28.—The senate today acted on the adoption of the Husting joint resolution and approved the proposition of submitting to the people the proposed change to the constitution to authorize the legislature enact a graduated income tax law. The resolution is identical with that adopted by the legislature two years ago, and after being concurred in by the assembly the next step will be the submission of the proposition to the people at the next general election.

The senate concurred in the Stewart resolution to have an investigation of the alleged lumber trust or combination. Senators Hudnall and Whitehead were not satisfied, the former because he believed the next legislature would be called upon to pay a bill for salaries, and the latter because he believed the present anti-trust statutes were ample to reach the situation complained of.

By a vote of 20 to 3 the senate passed the capitol appropriation bill, to make available \$600,000 for nine consecutive years for the new capitol.

Senators Hazelwood, Husting and Smith (democratic) voted in the opposition. The committee on state affairs introduced a new bill to authorize the licensing of liquor peddlers for not less than \$1,000, the goods to be sold in not less than five-gallon lots.

In order to make it possible for more public hearings, the senate delayed the concurrence in the assembly the joint resolution to report all bills from committees by June 6.

Both houses will adjourn tomorrow noon until Monday night.

The assembly killed the bill to require all cattle sold to be inspected for tuberculosis. It also advanced the bill to cut down the allowance to newspapers for printing election notices.

The Whitehead bill to change the terms of the circuit courts was amended so as to make no change in the Janesville circuit.

The bill to increase the salary of court reporters from \$2,000 to \$2,500 with \$500 expense allowance, was killed by nonconcurrence in the assembly. Court Reporter Grant of Janesville has been here with other reporters pushing this bill.

The millers allege that they are not getting their share of the prosperity and they purpose to find out the reason why. JUNE TERM OF THE CIRCUIT COURT TO OPEN NEXT MONDAY

Only Ten Actions Are Noticed for
Trial—Judge Grimm Has Tried 100
Actions Here Since Jan. 7.

The June term of the circuit court opens next Monday. Since Judge Grimm assumed the duties of his office on January 7 he has tried 100 contested matters in Rock county. Six of these were jury cases; 62 were issues of fact and law, and 32 were contested motions, not equating the small or interlocutory motions relating to default and the dismissal of actions. Nearly everything that was pending is so well cleared up that only three or four cases will go over to the June term.

But ten cases are noticed for trial at this term and only three or four of them will actually be tried. The cases listed are: Lawrence Cronin vs. the Rock Co. Sugar Co. (already settled out of court); the Sawyer & Austin Lumber Co. vs. D. K. and F. J. Jeffris; Gilbert Wheeler vs. Adelaide Wheeler (divorce); the Matter of the Estate of George Van Etta, deceased; Elizabeth R. Knickerbocker vs. George W. Avery, et al.; Peter McCue vs. Anton Wolter; B. F. Hanrahan and A. H. Lindquist vs. the City of Janesville; the Janesville Electric Co. vs. Pliny Norcross; Laura Steele vs. Charles Steele (divorce); and the Blodgett Milling Co. vs. the Janesville Electric Co.

The last named action is brought by the plaintiff, through its attorneys, Ruger & Ruger, to have the defendant perpetually enjoined from depositing earth, cinders, and other material in the head race which turns the mill wheels; to compel the removal of such obstructions as have already been so deposited; and to recover \$500 and costs for damage done the said plaintiffs. It is recited in the complaint that the defendant encroached on and obstructed the raceway by the driving of piles when the power plant was built at the dam; that an injunction was secured against these operations; but that the action was withdrawn on the promise of the Electric Co. to desist from further acts of the same character in the future.

Judge Grimm went to Jefferson last evening and will return to Janesville on Monday.

Beloit News publishes the following story relative to E. G. Pell, a resident of the Line City, being heir to an estate in France valued at \$250,000:

BELOIT FAMILY TO RECEIVE A FORTUNE

Estate in France Said to Be Worth
\$250,000—Is About to
Be Settled.

The Beloit News publishes the following story relative to E. G. Pell, a resident of the Line City, being heir to an estate in France valued at \$250,000:

"By some curious freak of fortune the estate has been in possession of another family for many years, although the Pell's had been endeavoring to secure their rights. Certain papers necessary to prove their right to the money could not be found. It was not until the death of an old woman, the last member of the house, that the documents were recovered. This woman had vowed that never as long as she lived should anyone find the papers. However, upon her deathbed she revealed their hiding place."

Cousin Looks After Transfer.

"A cousin of Mr. Pell, a priest, is now in France attending to the transfer of the property to Mr. Pell's father, who is the rightful heir."

"According to the laws of France, money or goods descend to the oldest member of a family. In case Mr. Pell's father had been dead, the oldest son would inherit the property. It is understood the Beloit man's father will divide the estate among his children. Just how much money Mr. Pell will receive as his share of the estate is not known but it will probably be in the neighborhood of \$50,000."

Covered by Volcano.
"Some years ago the Pell family lost a possible fortune by the eruption of the volcano on the island of Martinique. Mr. Pell's grandmother, who was seventy years of age, was one day approached by two Chicago lawyers, who informed her that they had been looking up the heirs of an estate in Martinique. The property was supposed to be worth at least \$2,000,000. Mrs. Pell was the direct descendant and was told she could take possession of the property. She thought she was too aged to trouble herself with the many cares such a fortune would entail. However, upon her death, the other members of the family took steps to secure the property and just as they were about to receive the necessary papers to enable them to prove their claim, the volcano burst forth in an eruption which buried far beneath its molten lava the rich estate."

GAMBLING INSTINCT

Gambling instincts appear to be one of the heirs of the human race from the prehistoric man. Down in Chicago today fortunes are being made and lost in the dealings in futures. Wheat goes up and down, men make thousands—lose thousands—in this maddest of all gambling games. Ever since the days of the old Grecian Gods and Goddesses, when Mars fell in love with Fortune, and their child, Gaming, a misshapen and hideous creature, was born, man has been her humble slave. Palaces have been built for her worship and thousands have lost their lives and fortunes seeking to win a smile from her face. Even Uncle Sam is endorsing gambling in a form. True the drawing of the unoccupied government lands by lot is but following out the Bible lessons of how the promised land was given to the individual Israelites, but it is gambling. The old Jewish people gambled. In Egypt under the Pharaohs it became so prevalent that ancient laws are found forbidding it on pain of death. Alexander's soldiers gambled when they found no more worlds to conquer and the great Alexander sat moping in his tent. The Greeks played games of chance, and the Romans spent millions during the heyday of their empire in games of chance. Even the Indians, the native Americans, gambled. Their games with knucklebones of animals for dice, rounded and polished, are described by the early voyagers. Great artists have left their pictures of the gambling of their day—Hogarth, Dore and Berard. Writers have written of its evils. The story of the court of Louis XIV. can not be told without the story of the gaming table. The court of the Stuarts, especially after the Restoration, is a story of gambling. Whites, Brooks, the Cocoa Tree, Almanack's, all dens of iniquity, are names common in English history. Great men have been great gamblers. Charles Fox, the friend of America during the revolution, was an inveterate gambler. Even the great Lord Nelson had his own particular club. George the Fourth was a gay rake and even in our own day and age we have the bacchanal scandals of King Edward, then Prince of Wales. In the early days of our own country we followed the example of the Mother nation, the horse races of the south, the cock pits, which delighted General Jackson, afterwards President Jackson; the gilded palaces of the ante-bellum days; the Ohio and Mississippi river steamers, crowded with the gamblers, where fortunes in cotton and slaves were won and lost on a single turn of a card. Now comes the legitimized gambling—the dealings in stocks and futures—the great organization of the gamblers in the large cities into close corporations, the immense fortunes made by unscrupulous police officers. Fouché, Napoleon's chief of police, made \$750,000 a year from the gamblers of Paris and it is safe to say that half that sum is paid every year in New York and Chicago. M. Blanc, the owner of Monte Carlo, pays millions for the right to run his immense gambling palace, for fifty years. Driven out of the Spas of Germany he has created one of the greatest palaces to the Goddess Gaming the world has ever seen. Saratoga, West Baden, Hot Springs, have been the gamblers' Mecca of this country in the present day. Gradually, however, their privileges have been curtailed. Mahom-

met in his Koran prescribes gambling and his followers today are the most moderate of all people. Gambling is a heritage of the past ages. It is an evil that should be suppressed and the way to begin it is to close all the gambling rooms and keep them closed. The Janesville saloons are being taught their lesson; why not the gambling rooms? Other cities have cleared out these dens; why not Janesville.

A NOBLE WORK

We must not always look to the future east for all our culture and from Denver, Colorado, comes a letter written by E. M. Craig, on "Child Culture, Before and After Birth." The writer offers his little articles free of all cost to those who care to write for them, addressing their letters to the New Era Publishing Company, 502 Temple Court, Denver, Colo. The articles are such that every mother should have them. They deal with subjects that are of vital interest to the birth and rearing of a higher race of people than now exist. It is not a chimerical dream, but plain facts set forth in an ungarish manner that are backed by medical research. The Gazette is glad to endorse such articles and would be glad if Janesville people would write to the New Era Co. for themselves to read for themselves and follow the teachings.

There is a general stir all over the country and it would appear as though there was something to this wheat crop question beyond the bugs and cold weather. However, when the summer really comes the talk of hard times may vanish.

All this talk about Roosevelt being the only logical candidate is bound to have its effect. If Roosevelt runs it is safe to say Bryan will not; if he does not it is an even bet with odds on Bryan that he will.

The Chicago Chronicle promises the readers of the President's Memorial Day address at Indianapolis a sensation as regards his attitude towards the railways.

Taft's boom is now talked of as having received a setback. Fairbanks is still doing his gumshoe work, while Cannon is smoking that long cigar and smiling.

Forty years ago wheat was high and yet we are all living today and many have arrived since that time and seem to be doing fairly well.

PRESS COMMENT.

Amen!
Eau Claire Leader: The merrie month of May is nearly gone. May the days of June be more rare and less raw.

A Left-Handed Boost.
Milwaukee News: Things certainly are coming Taft's way. The American Protective Tariff league has come out against him.

That's The Idea.
Rockford Register Gazette: Edison is now working on a substitute for coal. What we want is a substitute to carry out the ashes.

Cardiac Affliction in Brooklyn.
Brooklyn Life: Being in love is like being in a balloon—you go up in the air, a little gas escapes, and you come down with a bump!

Motive Hard To Analyze.
Exchange: Corey may be throwing his steel stock on the market for spite and then again he may be doing so because he needs the money.

Still Untouched.
Exchange: Fishermen observe with relief that the president has made no protest against misrepresentations as to the size and habits of their kind of game.

Expensive Restorations.
Chicago News: Breathitt county, Kentucky, has discovered, after trying to get at the facts for three years, that another of its distinguished citizens is not guilty.

Cash No Longer Odious.
Oshkosh Northwestern: Since the election of Mr. Stephenson as United States senator a considerable number of reformers in this state have come to the conclusion it is no disgrace to be rich.

Nickname Inevitable.
St. Louis Globe Democrat: Japan calls itself Nippon, and would be glad to see the latter name in use on the maps. The shortening of Nipponese to Nips would be a matter to consider in the case.

To Our Mutual Profit.
Chicago Inter Ocean: It is to be hoped that the size and resources of this country may so impress Knokki that we shall not be asked very soon to adjust many other things to the satisfaction of the Little Jap.

Has Bob Endangered His Chances?
Milwaukee News: And perhaps the experience gained will prove of profit to one or more of the late senatorial candidates when the time comes to elect a successor to Senator Stephenson's colleague.

Sure He Wants It?
Beloit Free Press: And now they are asking why Mr. Charles Pfister should not be elected to the United States Senate, as he has also placed the Republican party under obligations by his liberal contributions for campaign expenses.

Has Been At It Some Time.
El Paso Herald: Secretary Taft has a rival in the cabinet. It is said that the ambitious Mr. Cortelyou is evolving a "plot" and "conspiracy" to further his own candidacy for the presidential nomination.

Uncle Joe's Caustic Comment.
Omaha Bee: "Generally speaking," said Uncle Joe Cannon in an address at Albany, "I don't take much stock in these early candidates; they remind me much of what they call 'sconer dogs' out west. They put up a hell of a holler before they strike the trail at all." The illustration, while not elegant fits.

Pioneering on Risky Grounds.
Madison Journal: The Elver sterilization bill involves so radical a departure from the ordinary treatment of defectives by civilized nations that the Wisconsin legislature should be very sure it is on safe grounds before it places such a measure on the statute books. The general proposition that something should be done to prevent the multiplication of defectives will be agreed to by all. But the Elver bill proposes a drastic remedy for the evil, which may easily induce a wrong greater than the evil which it seeks to remedy.

New Idea of Gentleman.

A new definition of a gentleman was given at the Lyngington (England) county court recently, when the registrar asked: "What is the defendant?" "He's a gentleman," replied the plaintiff. "How do you define a gentleman?" the registrar asked. "Well, he came here and took a big house, and went away without paying his creditors," was the reply.

Be Your Own Judge

If you were going to buy a new garment or a new hat would you take the first article that was handed to you or would you use your own judgment?

If you are wise, which you no doubt are, you would be your own judge.

The same rule applies to selecting a HAIR TONIC. It is necessary for a Hair Tonic to contain at least 50 per cent alcohol in order to dissolve the natural oil in the hair, otherwise the tonic will appear greasy and sticky. Since the Pure Food and Drug Law went into effect all manufacturers of Hair Tonics are compelled to state on each package the percentage of alcohol used in each respective Tonic. Therefore, in selecting a Hair Tonic it is for your interest to note the amount of alcohol used.

WETMORE'S HAIR TONIC contains 55 per cent Pure Grain Alcohol, combined with the most powerful hair stimulants and antiseptics known. Wetmore's Hair Tonic does not contain oil or glycerine, will not stain gray hair and has a very pleasing odor. Can you ask for a better preparation for your hair and scalp? It is put up in two sizes: 50c and \$1.00. At all druggists and barbers, or at our store.

"A FACT"

You can sit down in the dental chair of Dr. Richards without feeling like going into spasms because of fear of pain.

He makes it his business to avoid hurting you.

It's a common thing to hear a patient say upon getting out of his chair: "Doctor, I won't be so much afraid next time."

"You didn't hurt me a bit."

Another common occurrence in his office is to hear people come in and say:

"Dr. Richards, your work for me has proven so satisfactory that I have recommended so and so to come to you for their work."

If you have Dr. Richards do your dental work you will be sure of at least two things:

It will be good work.

His prices will be most reasonable. Try him for your next work.

DECIDES NOT TO MOVE SCHUMAKER

SUPERVISORS FIND PLAN NEITHER HUMANE OR ECONOMICAL.

SESSION OF COUNTY BOARD

Promises to Be a Quiet One This Time—\$2,100 to Be Appropriated for Laundry at County House.

F. F. Livermore of Beloit and Dr. C. M. Smith, Jr. of Evansville were the only absentees when the county board of supervisors assembled at the courthouse this morning. The last named was expected this afternoon. The report of Allan D. Conover of the state board, who made an inspection of the county house on March 8 and who found that the kitchen was too small and ill situated in the basement, was received. A measure was introduced providing for the appropriation of \$300 for repainting and repairing the county clerk's office. An appropriation of \$2,100 for equipment and proper machinery for a laundry at the county farm was recommended by the building committee and will be acted upon this afternoon.

Schumaker Not to Be Moved.

Relatives of George Schumaker, the man who was shot down by Florence Dugan on April 18, have been unable to pay for his maintenance since May 20. A special committee consisting of Supervisors E. C. Hopkins, L. E. Gettle, and J. A. Paul made an investigation yesterday of the plan to remove the patient to the county farm and reported today. They found the man in a very precarious condition, moist gangrene having developed about the open wound four inches in diameter in the back which constantly discharges a large quantity of pus. Owing to the infectious character of the disease no other patients can be accommodated in his ward of three beds and the constant services of a nurse who in the nature of the case can attend to no other patients, are required. The committee was convinced that it would not be humane or expedient to attempt to remove the man to the county hospital and favored the acceptance of the matron's offer to continue to care for the man for \$35 a week, exclusive of the physician's services. Dr. G. C. Waukele will continue to attend him for \$2 a visit. One visit must be made each day and sometimes two, so that the total expense will be at least \$50 a week. It was found that if Schumaker were to be removed to the county farm, the services of a trained nurse at \$25 a week would have to be procured. It was suggested that a special committee be appointed to act for the best interests of the county in this matter after the board's adjournment. The report was adopted and by a resolution Poor-Master Kenyon was instructed to carry out its provisions.

The Committee

The board will finish its work this afternoon. The committees announced by Chairman S. S. Jones this morning were as follows:

1. Tax Certificates and Illegal Taxes—W. H. H. Johnson, Thomas Clark and C. H. Kline.
2. District Attorney's Report—B. C. Hanson, J. B. Henry, and G. Clemenson.
3. Charters and Corporations—F. M. Britt, C. E. Moore, and W. C. Duthie.
4. Finance—J. E. Egan, W. E. Shoemaker, and J. L. Bear.
5. Change of Names of Towns and Villages—F. Rehfeld, J. Sherman, and J. Tuller.
6. Vacating Towns and Villages—W. E. Shoemaker, H. Ebbott, and Thos. Clark.
7. Public Buildings—S. Smith, E. Rotherham, and P. M. Green.
8. License Committee—C. M. Smith, J. E. Egan, and Geo. E. Merrill.
9. Accounts of Receiving and Disbursing Officers—L. E. Gettle, J. C. McEvoy, and E. C. Hopkins.
10. General Claims—Examinations of Inmate—H. J. Skavlem, F. P. Smiley, and T. J. Hughes.
11. Equalization—Chairman, F. F. Livermore; 1st Dist., L. E. Gettle; J. A. Paul, and A. C. Gray; 2d Dist., H. L. Skavlem, Robt. Barlass, and E. Rotherham; 3d Dist., G. H. Crosby and J. R. Jones.

WM. O'NEIL CASE THROWN OUT COURT

Janesville Man Completely Cleared of Even the Charge of Assault on Peterkin.

Last March the Chicago police telegraphed City Marshal Appleby to arrest or locate William O'Neill, a Janesville man, wanted on the charge of having caused the death of a drainage canal inspector named Peterkin in a row in February. O'Neill had been employed by Hayes Bros. on their work at Lockport and had left their employ to go to French Lick, Indiana. Mr. Dennis Hayes wired him to come to Chicago and he surrendered to the police and was released on bail, which was provided by the Hayes Bros. Later the charge of murder was dropped and that of assault inserted in the complaint. His bail was reduced from \$2000 to \$500. When the case was called in the court recently no one appeared against O'Neill and he was discharged for lack of prosecution. Mr. O'Neill is well known in Janesville and his many friends here rejoice in the outcome of the suit, which appears to have been a mistake from the start. O'Neill had an argument with Peterkin and in the scuffle that followed Peterkin was worsted. He returned to his work later, but died shortly afterwards of erysipelas, and O'Neill indicated for having caused his death. O'Neill never tried to evade arrest and gave himself up as soon as known he was wanted. The fact that the Hayes Bros. had every confidence in him is shown by their going his bail and preparing for his defense. He is now employed by them on the work in the new North-Western railway yards.

Speaking of Fathers. Two kids had been engaged in a heated argument over the respective merits of their sires, when Johnnie clinched his argument with the following: "Huh, that's nothing! My father was in the army, and once, when he was standing on a hill beside a cannon, a war came up the hill, and he fired the cannon and killed the whole war!"—Judge's Library.

To Become a Billiard Player. I recommend all players to train their touch and range of strength by practicing with only one ball, sending it up the table from baulk until it can be made to stop with some certainty at the same place always. Then that place should be moved so as to present a different test of touch and strength, and so on with constant variations.—C. B. Fry's Magazine.

AFTON

Afton, May 28.—Thirty-five cedar trees were planted on the Afton state graded school grounds last week, making a total of forty-one trees of various kinds which have been set out there this spring. This nice bunch of cedars was donated by Charles H. Griffen from his "Cedarvale" farm and the work of transplanting was in charge of W. J. Miller, treasurer, and Fred Kethelhorn, clerk of the school board, assisted by Thomas Tracey, Roy Antisdel and Jay Antisdel. Valuable assistance was also rendered by Miss Myrtle Drahl, whose efforts were thoroughly appreciated by those supervising the work. Two score of trees planted in one season is a good record and shows a splendid public spirit on the part of both patrons and officials of the district. Last week was a quiet one with the Afton Fishing club, the members sitting around the stove at headquarters and swapping stories about the whoppers they had landed in days gone by. With the coming of better weather, however, the sport will be resumed and with a larger field of operations, the closed season for Bass Creek having terminated last Saturday. Some of the boys were out for a little time Saturday afternoon and Captain Tracey caught a dandy pike, that tipped the beam at 3 1/2 pounds. Word reached Afton of the death, at Madison, of T. R. Taylor, a former well known resident of this town. Funeral services will be held at Madison Tuesday and interment will be in the Afton cemetery, where Mr. Taylor's first wife is buried. John Brinkman and U. G. Waite have received the handsome watch fobs, offered as a prize to any members of the Modern Woodmen of America who secure five new beneficial adoptions in any one month. These two members of Afton camp secured twelve new Woodmen, who were adopted during the month of April, and their efforts are thus rewarded by Headquarters A. R. Talbot, of Lincoln, Neb. Memorial Day services will be held at Brinkman's hall here Thursday evening, May 30th. A short program of recitations, songs, and drills will be rendered by the pupils of the state graded school and the address will be delivered by Supt. H. C. Buell of Janesville. Mr. Buell is no stranger to an Afton audience and he is assured a hearty welcome on this as on previous occasions. Mrs. Josephine Antisdel and daughter Olive are visiting with relatives at Dwight, Kansas. They expect to be absent a couple of weeks. Mr. and Mrs. Fred Kethelhorn and son Frank will go to Eagle, Wis., on Wednesday of this week, to attend the wedding of Mrs. Kethelhorn's niece. Miss Mattie Spoon, of Janesville, spent Sunday with Afton relatives. Afton school closes for the summer vacation on Friday of this week. County Superintendent O. D. Anderson.

COMFORTING WORDS

I did not understand my trouble at first and used a lot of remedies that did not help me, but since I used Doan's Kidney Pills, procured at the People's Drug Co., I have been rid of my old complaint, and it gives me pleasure to recommend the remedy that cured me."

INDEPENDENCE SAFETY FOR THE PUBLIC

NATIONAL CIGAR STANDS

Improved Quality At Lower Prices

If the straight-line methods of the National Cigar Stands did no more than to show the reduction in prices, this triumph would be enough.

But the plan has effected more than mere price-saving—it has given through its system of cigar keeping, an invariable uniformity of character—in short, a higher degree of safety to the smoker.

The purchaser of a cigar of any one of the thirty exclusive National brands takes no chances whatever. He is definitely assured that he is getting

Better Cigar Values At Lower Prices Than Ever Sold Before

Whatever the price he pays, it purchases better tobacco and more of it than the same price has ever bought before. He is getting a cigar that was made in million lots (thus ensuring uniformity), and which came direct from the producer, thus saving cost.

The drug stores which belong to the combination display the National Cigar Stands emblem in their windows, and sell from a new, scientific, condition-proving case the following brands, among others:

Black and White—Seed and Havana; as good as was ever bought at 8 for 25c.	5c
Cuba-Roma—Clear Havana; Cuban leaf, 8 for 25c. grade	5c
College Days—Best domestic cigar ever offered at	6 for 25c
Stirling Castle—Fine, clear Havana cigar; 10c. quality	6c
La Idalia—Choice clear Havana in many popular sizes at	3 for 25c and up
